

Suraj Patel

+917905761704	193 Javansipur., Jaunpur, U.P	https://devsuraj.vercel.app	dev.surajpatel@gmail.com
---------------	-------------------------------	---	--------------------------

Full-stack MERN developer with strong backend, CI/CD, and DevOps experience. Skilled in building scalable applications, designing robust APIs, and automating workflows. I collaborate closely with teams to deliver impactful, high-quality outcomes and continuously improve engineering practices.

Work Experience

Software Engineer II, Bayer

July 2025 - Present

- Contributed to Nexus, a centralized platform enabling unified access to enterprise data, analytics, and **AI/ML** tools.
- Developed full-stack features to support data exploration, model integration, and collaboration across teams.
- Built and maintained **CI/CD pipelines** using **GitHub workflows** to automate build and deployment.
- Leveraged **AWS services**, including **AWS Lambda**, to support scalable and secure backend operations.

Software Engineer I, HCLTech

May 2025 - July 2025

- Worked on a MERN stack application to generate insights for small business.
- Integrated Generative AI capabilities to analyze user inputs and produce data-driven insights.
- Collaborated within a team to design, develop, and deploy AI-enabled product features.

Software Engineer Intern, Mahindra Logistics

Feb 2024 - Apr 2024

- Developed a Test automation framework at Mahindra Logistics using Selenium, Java, TestNG, and Maven
- Integrated Extent Report, Apache POI, and Log4j for advanced reporting, data management, and logging
- Implemented automated testing processes, boosting efficiency by 70%, ensuring rigorous software compliance

Educational Background

	Percentage/CGPA	
BACHELOR OF TECHNOLOGY		
INDIAN INSTITUTE OF TECHNOLOGY (BHU) VARANASI	8.76	2020-2024
Pharmaceutical engineering & technology		
MASTER OF TECHNOLOGY (INTIGRATED DUAL DEGREE)		
INDIAN INSTITUTE OF TECHNOLOGY (BHU) VARANASI	---	2024-2025
Pharmaceutical engineering & technology		

Projects

Nexus – Centralized Data & AI/ML Platform

- Contributed to Nexus, a centralized platform enabling unified access to enterprise data, analytics, and AI/ML tools.
- Built backend APIs and serverless workflows using Node.js, Express, and AWS Lambda to support scalable data processing and model integration.
- Implemented CI/CD pipelines with GitHub Actions and AWS services, automating build, testing, and deployment processes
- Tech Suite - Python, React.js, Node.js, TypeScript, AWS Lambda, DynamoDB .

Spirit – Event management website

- Implemented the whole Backend of Spirit, an event management website for the Department's Annual Fest
- Integrated User authentication with login, password reset, and Campus Ambassador registration
- Enabled Multi-event registrations diverse payment methods and user dashboard for tracking registered events
- Tech Suite - JWT, Bcrypt, Nodemailer, Razorpay, and Express router
- Exposure - Node.js, Express.js, MongoDB, EJS Engine | [Source code](#)

Skills

- Programming Languages - C/C++, JavaScript, Python
- Web Development - HTML | CSS | React.js | Express.js | Node.js | TypeScript | Redux | Bootstrap | Tailwind.css
- Database & Tools - : MongoDB | DynamoDB | SQL | DBMS | Git | Cloudinary | OOP
- DevOps & Cloud: AWS (Lambda), CI/CD, GitHub Actions, GitHub Workflows

Honours & Acievements

- Ranked 5th** in the 2024 **Catapult Techathon** by **Mahindra Logistics**, reflecting technical and problem-solving skills
- Solved **1500+** **DSA** questions on [LeetCode](#), [GeeksforGeeks](#), and [CodingNinjas](#), demonstrating analytical abilities
- Achieved **Gold medal in Kabaddi** during an **inter-hostel sports competition**, showcasing leadership and endurance
- Successfully completed **Hacktoberfest 2022**, contributing to open-source projects and enhancing coding proficiency
